👤 Profile

To secure a challenging position in a dynamic and growth-oriented organization where I can apply my foundational knowledge in coding and technology. Eager to contribute positively to projects, I am committed to continuous learning and skill development to enhance my capabilities and make meaningful contributions to the team.

🧰 Work Experience

Intern

ZOHO

Sep 2024 - Nov 2024:

- Configured and deployed Selenium Grid with Docker, enabling scalable and parallel test execution. Conducted web automation testing using Selenium in Java, leveraging TestNG for structured test creation and comprehensive reporting.
- Developed efficient test scripts with Playwright's codegen tool by automating manual interactions. Deployed a disk space monitoring web application on Tomcat, incorporating graphical disk usage representation with Google Charts for intuitive analysis.

⚙️ Technical Skills

Hard Skills:

- Front-End : HTML, CSS.
- Programming Language :JAVA, OOPS concepts.
- Database Management : SQL.
- Testing : SELENIUM, TESTNG.
- SDLC : Entire software development process.

💻 Competitive Programming and Achievements

HackerRank - Explore My Profile:

- I have actively solved coding challenges on HackerRank, enhancing my skills in data structures, OOPS concepts, and programming. Participating in Hackathons has been a rewarding experience, combining fun and learning while earning recognition for my problem-solving abilities.

🎓 Education

Dhaanish Ahmed College of Engineering

June 2023:

- B.E. Electronics and Communication - 8.4 CGPA

St. Joseph's Matric. Hr. Sec. School

March 2019:

- HSC Computer Science-Maths-Physics - 73.5 percent

St. Joseph's Matric. Hr. Sec. School

March 2017:

- SSLC Matriculation - 92 percent
